- First come, first served!

Pay What You Will night is a new addition to San Jose Rep's extensive community outreach program that supports the company's mission of accessibility and affordability for every member of the community. It is also one more way of broadening our audience and the community conversation that surrounds great theatre.

Founded in 1973, the Japanese Cultural and Community Center of Northern California has been serving the community for over 35 years. The JCCCNC strives to meet the evolving needs of the Japanese American community through offering programs, affordable services and facility usage. The NORTHERN JAPAN EARTHQUAKE RELIEF FUND is helping the victims of the devastating earthquake and tsunami that hit Japan on March 11, 2011.

100% of the donations received will go to local non-profit and community service organizations in Japan for citizen-to-citizen relief efforts reaching those most in need in the most affected areas.
